EMPOWERED INNOVATION

You're an achiever who's passionate about your work. You're interested in career opportunities that can place you on the forefront of research and development where you can really make a difference. You may be wondering if you should put your talents to work in a fast-paced, small-company environment or in a high-profile global organization.

Who says you have to choose?

Johnson & Johnson Pharmaceutical Research & Development, L.L.C. is an organization that creates smaller, innovative environments for drug discovery in areas such as hematology, oncology, infectious disease, neurology and psychiatry, pain, and women's health. At the same time, the company collaborates with other companies within the Johnson & Johnson family on far-reaching strategies for drug development and commercial optimization.

Johnson & Johnson Pharmaceutical Research & Development, L.L.C. is a member of the Johnson & Johnson Family of Companies.

Discover a world-class research organization that offers an empowering environment for innovation along with the opportunities and resources of a global business leader.
